Michael, 11; Coleman, 10.

Next Week's Game—  
Blairmore at Hillcrest-Bellevue.  
Coleman at Pincher Creek.  
Michael at Cowley.

### Blairmore 7, Pincher 6

Wednesday's baseball game at Blairmore was a real hum-dinger, and showed to the satisfaction of everyone that our team possesses the mettle worthy of serious league. Pincher came up flaked to the limit with confidence, of winning, and for the early part of the game seemed justified in maintaining such confidence. But a mistaken signal from the catcher to Pincher's pitcher, General Bell, cost their entire prospects. At the finish of the sixth inning, when the score stood six to one in Pincher's favor, Bell took a signal to mean that a man could be stopped at first base and accordingly shifted the attention of first baseman. But, by only a coach or was near that point and the first baseman missing the ball saw our men on second and third bases a chance to reach home. In the last half of the seventh, Turner picked out three Pincher star batters in quick succession and Tony Vejvra opened the second half for Blairmore. Tony shot a three-bagger, followed by Jack Patterson with another three, which were chased the tie of the Pincherites and quelled the vociferous cheering of the Pincher team and their supporters. Excellent play was staged by the heels toward the finish aimed the greatest excitement ever witnessed at field sports in these parts. Pincher dunned their coats and packed their baggage as soon as Blairmore had one ahead, while Blairmore had three men on bases and a man at the bat who could easily have landed all home.

### Boy Wanted

Wanted—A boy who stands straight, sets straight and talks straight.  
A boy who listens carefully when spoken to, who asks questions when he does not understand and does not ask questions about things that are none of his business.

A boy whose finger nails are not in mourning, whose ears are clean, whose shoes are polished, and whose clothes are brushed, whose hair is combed, and whose teeth are well cared for.

A boy who moves quickly and makes as little noise about it as possible.  
A boy who whistles in the street, but not where he ought to keep still.

A boy who looks cheerful, has a smile for everybody and never sulks.

A boy who is polite to every man and respectful to every woman or girl.

A boy who does not smoke cigarettes, and has no desire to learn how.

A boy who never bullies other boys nor allows other boys to bully him.

A boy who, when he does not know a thing, says, "I do not know," and when he has made a mistake says, "I'm sorry," and when requested to do a thing immediately says, "I'll try."

A boy who looks you right in the eyes and tells the truth every time.  
A boy who would rather lose his job or be expelled from school than tell a lie or be a cad.

A boy who is perfectly at ease in the company of respectable girls.

A boy who is not sorry for himself, and not forever thinking and talking about himself.

A boy who is friendly with his mother and more intimate with her than anyone else.

A boy who makes you feel good when he is around.

A boy who is not a goody-goody, a prig, or a little Pharisee, but just happy, healthy, and full of life.

A boy who is eager to read good whole some books.

A boy who other boys like.

This boy is wanted everywhere. The family wants him, the office wants him, the boys and girls want him, and all creation wants him.

Chicago Methodists are planning to build a \$3,500,000 cathedral in the loop district to commemorate the centenary of their mission.

### FARMERS HAVE CONFERENCE WITH EDUCATION DEPARTMENT

Important Discussion on Educational Affairs. Resolutions of Approval are Passed.

The joint educational committee of the U. F. A. and the U. F. W. A. held its first official conference with the Minister of Education and Officials of the Department in Edmonton last week. A very full and satisfactory discussion took place regarding all phases of rural school problems. The efforts of the Department to provide High School opportunity for rural children were strongly approved as was also the general attitude of the Department in defending the autonomous rights of school boards. The members of the Committee made many helpful suggestions and declared their support of any plan that would equalize the educational burden throughout the Province.

After the Conference the members of the joint Committee met in the Corona hotel and passed the following resolutions which were forwarded to the Minister of Education:

"That we are in favor of the authorized form of teachers' contract with an amendment to clause 5 regarding termination of agreement, making this clause reciprocal and providing, in the event of either party breaking the contract, a minimum penalty equal to one month's salary.

"That we favor the principle of the conciliation board.

"That we express our approval of the increase in the number of examination centres.

"That we are in favor of plan of proposed are now followed in forming simulated colonies as outlined to us by the Minister of Education.

"That we are glad to note that the number of official trustees has been materially reduced.

"That we are in favor of a system of Provincial taxation for educational purposes."

The report was signed by P. Baker, Ponoka, Chairman; Mrs. S. M. Gunn, Paradise Valley. Secretary Stephen Lund, Pincher Creek; Henry E. Spencer, Edgerton.

### Card of Thanks

Strathcona, Alberta

June 14th, 1931

Congregation of St. Luke's Church, Blairmore, Alberta.

Dear Friends:

On my mother's behalf, and also the rest of the family, I desire to thank the people of the congregation of St. Luke's church for the many acts of kindness and beautiful floral wreath sent for my dear father's funeral, also for expressions of sympathy during his recent sad bereavement.

Yours very sincerely,

LILLIAN A. WOODMAN

### Salvation Army

Commanding Officer Leaving The Pass

Lieutenant L. Ede, who has been in charge of the Army's work through The Pass for the past five months, has received orders to leave and proceed to a new appointment. Special farewell services will be conducted by the lieutenant on Sunday next, and he leaves the following Thursday. His new appointment is not yet announced.

### There's a Happy Medium

Suppose you were hungry and it was dinner time. And suppose you wanted a nice, juicy tenderloin steak.

We know where you could go and pay a big, fancy price to have it all dolled up so to own mother wouldn't know it.

Or, you could go to another place with fifty cents, take a chance with the corner, and come back with thirty cent left over.

On the other hand, we know where you could go to a clean, decent, respectable place, pay a fair price and get good, substantial food and service to meet your demands.

However, we're not in the steak business but the same principle applies to printing.

**Alex. M. Morrison**  
Coleman, Alberta

Duncan McDonald, superintendent of mine rescue and first aid for the province of Alberta, also connected in an official capacity with the provincial Workmen's Compensation Board, arrived back from Calgary on Friday last.

A woman and four children were burned to death at Innisfail last week, when their home was destroyed. The woman's husband and sister and another child escaped. The origin of the fire was unknown.

## CUTS OPERATING COSTS

**THE** economy of using Imperial Polarine Motor Oils extends over practically every item of motor operation.

The lubrication afforded at every friction point and the gas-tight piston-to-cylinder seal means a big saving in fuel bills and a noticeable increase of power.

Through perfect protection of all motor parts, undue repair bills are avoided and depreciation is greatly reduced. By using Imperial Polarine Motor Oils you can save dollars this year on maintenance alone. Besides, you realize more profit and greater usefulness from your car.

Always use the grade of Imperial Polarine recommended on our Charts for your type of motor. See Charts at your dealer's or write to 56 Church Street, Toronto, for a copy of our interesting booklet, "Automotive Lubrication," which contains the complete Chart of Recommendations.

**IMPERIAL OIL LIMITED**  
BRANCHES IN ALL CITIES

**For a Clean, Efficient Motor**

Dealers displaying this sign will thoroughly clean the old oil and the dirt out of your crankcase, will flush your motor crankcase with Imperial Flushing Oil and refill it with Imperial Lubricating Oil. Your crankcase should be cleaned every 1,000 miles or less. It means more economy and more satisfaction to employ Imperial Polarine Crank-Case Cleaning Service.

## New List of Unoccupied Lands

In order to provide prospective purchasers with information as to where suitable land may be obtained in the more settled districts, the Department of the Interior, through its Natural Resources Intelligence Branch, has compiled and published particulars regarding unoccupied privately owned farm lands for sale in this locality. The object of this publication is to assist in the settlement and development of lands now lying idle.

Important details are given concerning each farm such as the area fit for cultivation, nature of soil, distance from railway, price and terms of payment. This information should be of great use to prospective purchasers or those interested in inducing settlers to locate in this vicinity.

The list of the district which is known as No. 13 may be obtained free of charge upon application to the Natural Resources Intelligence Branch of the Department of the Interior at Ottawa.

## Radium

This wonderful element was discovered by Mme. Sklodowska-Curie, a French chemist, and is working, it is said, the cure of cancer in its early stages as well as being of endless value in allaying the ravages of more nature cases. Radium is an element of uranium and its energy is practically inexhaustible. It takes over 40,000 grams of uranium to produce 254 grams of radium which is said to be enough to treat 2,000,000 patients. The quantity of radium present in the carnotite pockets of Colorado is about two per cent greater than that found in the pitchblende deposits in Europe. If radium was only worth its weight in gold, an ounce (or 28.35 grams) could be bought for \$20.37, but at this price it could never have been put on the market, owing to the amount of expense and labor necessary to its preparation for use—there is today less than an ounce in all its existence. An interesting fact about Radium is that it has three distinct rays—called alpha, beta and gamma rays. The gamma rays are those used in the treatment of cancer because of its wonderful penetrating properties; it is said that a gamma ray will penetrate a piece of chilled steel a foot in thickness; the other two rays have little penetrative power. New York state has become much interested in checking the spread of cancer, which is said to cause the death of 30,000 people each year—8,000 of whom die in New York state alone. In August of last year the state of New York purchased for \$25,000—254 grams of radium, which was delivered in a lead tube so small that it could be carried in a vest pocket; this was given to the Memorial hospital in New York city for the treatment of cancer and allied diseases. Clinics where free treatment may be had, are held daily except Sunday, at this hospital and most commendable results are being obtained.

## The Calgary Exhibition

Prospects are very bright for the most successful exhibition ever held at Calgary. A banner programme will open on July 1st. Preparation Day is June 30th, the official opening taking place on Friday. The attractions include a wonderful musical feature—the Musical Festival Choir of 500 voices, which will form part of the evening programs. The display of fireworks which will conclude each evening's program will be the most elaborate ever presented at Calgary, including in addition to the aerial fireworks a magnificent reproduction of "The Naval Battle at Dover."

The exhibits, which closed last week, are sufficient evidence that the exhibit will be up to the usual high standard maintained at the Calgary Exhibition, and in many departments the exhibit will be better and larger.

In the livestock department the sheep exhibit still excels anything ever seen in Calgary before. The prize list for this branch has attracted a number of new exhibitors, including several from across the line, who are sending large entries in many breeds.

The home, cattle and swine entries include many splendid entries of the best breeders and promise a very interesting all-round exhibit. As a matter of fact, this branch of the exhibition promises to tax to the utmost the accommodation at the disposal of exhibitors.

Having All Week.  
The best homes in Western Canada.

have been entered for the racing program on the first four days, July 1, 2, 3, 4, and 5, while two auto races will be the feature of the afternoon program on the 6th and 7th.

Auto Polo, which proved such a popular innovation at the last Exhibition, will be part of each evening's program. Inquiry of your agent regarding special rates on all railways for the Calgary Exhibition.

Many people no doubt, to some extent, share the fancy of children that the Calgary A. Wortham show, just come of itself, when the weather gets warm enough, as the wild flowers do. It may occasion them some mild surprise to know that a very large population of the show folks black winter, when they are supposed to be hibernating, is really the season of their greatest activities and hardest toil.

When the Wortham show comes to town, the early rise, gain some faint idea of the extent and amount of labor required to erect the scene and prepare for the entertainments. The work done in winter is of an entirely different sort, but of necessity, all in preparation for the busy days of the summer time. In summer the show has but one center of activity, the midway. All of the work of loading and unloading the show train, tears directly upon the performers under the numerous tents.

In the winter time the work is carried on from various centres: the general business office, the winter quarters, and the general superintendents' departments. From these centers lines of industry radiate out over the wide world. The show affording the best illustration of these lines is unquestionably the G. A. Wortham show, which will be in this city for a week at the Calgary Exhibition, June 30th to July 6th. Its system of organization and execution is matched in all departments, is infinitely superior to those of all others.

During the winter, a hundred or more nations and artists are at work constructing, rebuilding and ornamenting the pavilions, fronts, stage settings, and other costly objects of the show. Everything is gone over and put in the best of shape, so that when the show is ready to take the road again, little or no work is required to keep all in working order.

## Tough on The Lawyer

The devil came to the earth one day, And into a court room took his way. Just as a lawyer, with very grave face, Was proceeding to argue the points in his case.

Now a lawyer his majesty never had seen, For to his dominion none ever had been.

"To the fault of my agents," his majesty thought, "That none of these lawyers have ever been caught. And for his own pleasure he had felt a desire

To come to the earth and the season require. Now, when the first lawyer had come to a close,

The counsel opposing him fearfully rose. And leaped such abuse on the head of the first,

That he made him a villain of all men the worst. Each claimed he was right and the other was wrong;

They quarrel and contended and argued so long That, concluding he'd heard enough of the fuss,

"Old Nick" turned away and soliloquized thus: "They have puzzled the court with their villainous cavil,

And I'm free to confess they have puzzled the devil. My agents are right; let lawyers alone. If I had them, they'd enchain me out of my throne."

—West Publishing Co.

Blairmore Lodge, No. 68, meets every Tuesday at 8 p. m. in the Oddfellows' hall, Officers for ensuing term: E. Eckmier, N.G.; W. Patterson, V.G.; W. R. Patterson, E.S.; James Crowder, F.S.; W. Knight, Treasurer.

Mr. Ubertino hopes to have his new theatre ready for opening next week end.

Mr. Trenholme Dickson has been appointed registrar in the judicial district of Lethbridge.

### Cowley Happenings

G. W. Buchanan is purchasing a new tractor.

Mrs. Bunning is visiting friends at Rosedale, Alberta.

Clement White was a Lethbridge visitor last Friday.

George Edgett is spending a few days with his parents here.

Mr. Lynch, of Beaver Mines, was a Blaimore visitor on Tuesday.

Mrs. Gordon Welsh, of Lundbrock, was visiting in town this week.

Mrs. A. Baines, of Lethbridge, is visiting with friends for the present.

Mrs. McKerral and daughter Elsie have returned from a visit to Calgary.

C. S. Crest, of the old Meade ranch, made a shipment of choice mutton this week.

John Kemmis and Mrs. Kemmis have gone to Victoria, B. C. for a well-earned holiday.

Miss McKitchie has returned to Fernie, after spending several weeks here with friends.

Mr. and Mrs. Alex. Druert, of Medicine Hat, are the guests of Mr. and Mrs. Richards now.

Mrs. Howell, of Michigan, and Mrs. Campbell, of Calgary, are at present the guests of H. D. McMillan.

The grasshopper situation in town is rather serious, a number of promising gardens being almost totally ruined.

The Cowley ball team had another off day on Wednesday, being defeated at Bellevue by that team by a score of 18 to 1.

Mrs. Fred Tuslan and Mrs. McIvor left on Monday for Edmonton to attend the Women's Institute convention.

Clarence Webber has sold his barber shop to J. O'Connell, and is selling his effects on the 25th, after which he will move to Vancouver.

Miss Muriel Murphy has returned home from Edmonton, where she has been attending the Strathcona collegiate for the past year.

Miss Ruth Fink, of Tennessee district, and Miss Augusta Edwards, of North Fork, are stopping in town this week for the purpose of writing on the public school examinations.

The weather for the past few days has been unusually warm, and the farmers are beginning to complain of possible damage to crops through lack of rain. Hoppers are doing some damage.

It's easy to believe prices have dropped somewhat until you climb out of the barber's chair to pay your bill.

Only one liquor law violator in every ten brought before Judge Landis in Chicago is an American citizen.

In view of the fact that considerable business in the marriage ceremony line is promised for the next four or five weeks, local clergymen of all denominations have combined and decided to set a special reduced fee. Here's a golden opportunity for the young and middle aged "gaffers" and "flappers" to attain a higher standard of efficiency at no more cost than their little purses can stand. Thanks to the co-operative spirit of the clergy.

What Did You Say

"Mr. B., did you say, or did you not say what I said you said, because U. said you said you never said what I said you said; now if I said you did not say what I said you said, then in the name of stars what did you say?"

FOR SALE, at half price, Workers' Hall, Bellevue, Alberta. Apply if by mail to Box 258, Coleman, Alta., or in person to O. North, Blaimore.

### Coleman Happenings

Alex Cameron is around, after a week's illness in the hospital.

Mr. and Mrs. Riddell have returned to town for the summer.

Inspector Hutcheson paid a flying visit to Coleman last Saturday.

Mrs. Wm. Burns and daughter Dorothy leave this week for Quebec.

George Davies returned home Tuesday from a journey to Drumheller district.

Michel 21, Coleman 10 at Coleman Michel 11, Coleman 10 at Michel. Dismal, but true.

Three local men made the ascent of Orowe's Nest last Sunday. By means of a reflector, they signalled friends in town from the top.

A great number of Masons and others from Coleman attended the funeral of the late W. P. Williams at Bellevue on Friday.

Many entries are expected to be made here for the Canadian Amateur Golf Championship, to be held in Winnipeg in August.

Alex. Easton and family and Jerry Lonsbury's family took a week's motoring holiday to Calgary and other northern points.

Word has been received from A. E. Liddle, who was in the jewelry business here for two years. He has purchased a business near Los Angeles, California.

William Fraser returned home last Wednesday from a six month trip to the Old Country. Bill expected to be home a month ago, but was unable to get passage on the boat.

The ardent supporters of the Stewart government are clearing decks for action. Notices are out for a meeting to size up the situation in this locality. The air is full of rumors of various candidates coming out.

Coleman footballers have enjoyed more success than the baseball side this last week. Coleman 5, Corbin 1; Coleman 4, Hillcrest 0. Michel, however, is after our scraps in football, as well as baseball. These teams clash in two or three weeks here and this should be the game of the season.

Anglicans of Kootenay diocese favor beer and wine license and are against admitting women to church councils.

For the present Cowley's tent has been moved down near Burns Creek, the atmosphere on the golf course having become too dry.

A Chicago Y. W. C. A. discovered a fifteen-year-old girl member, living only nine blocks from the heart of the city, who has never seen a railroad train, and has ridden on a street car but once.

Not since the funeral of the victims of the Hillcrest disaster has such a large funeral been witnessed as that of the late W. P. Williams on Friday afternoon last. The arrangements were in charge of the Masonic Order, and about one hundred members of that society from all points between Lethbridge and Fernie were in attendance. An impressive service was conducted by the Rev. H. Peters, assisted by Rev. D. K. Allan, at the Bellevue home. Fully one thousand people congregated around the beautiful home. At 3 o'clock the procession lined up and headed by cars containing mourners and Masons, a procession of seventy-six automobiles containing about five hundred people, wended its way towards Blaimore, extending nearly two miles in length. Proceeding the hearse was a large dray laden to overflowing with floral tributes. At the graveside at Blaimore the beautiful and impressive last rites of the Masonic Order were administered as all that was mortal of a good and true citizen and fellow worker and brother was consigned to its last resting place.

CONTAINS NO ALUM

### Man's Greatest Asset

The universal membership enrolment campaign recently conducted by the Red Cross Society throughout Canada had for its object the arousing of the people to the vital need of greater personal interest in the matter of health. It was not a campaign to raise money, but a Dominion-wide and well organized effort to secure an active and intelligent public interest in measures for the prevention of disease, it being realized that an ounce of prevention is worth many pounds of cure. The average man, woman and child gives little heed to their physical well-being until they are afflicted with some ailment, and then there is a hurry-up call for a doctor.

That there is need for a great awakening on the part of the public in regard to matters of personal hygiene and public health was demonstrated by the enforced medical examination of men for military services during the war years, but, startling as were the disclosures from these examinations, even more staggering are some recent figures and opinion contained in an article in *The Journal of Health and Sanitation*, written by Dr. J. H. Kellogg, superintendent of the famous Battle Creek Sanatorium.

Races of men have sometimes died out and utterly disappeared and Dr. Kellogg is of the opinion that this may happen to the whole human family if we continue to live under what he considers present unnatural conditions. "Man," says Dr. Kellogg, "is a very old-fashioned animal trying to live in new-fangled ways, in a manner that no animal ever before adventured, and so unnatural and so ill-adapted to his constitution and his requirements as to render his ultimate undoing inevitable. Man is by nature an open-air dweller. But the business and professional men, incarcerated behind the doors of their offices, with their assistants, die years before their time, and, on the average, twenty years sooner than the farmer whose vacation keeps him in the open."

Present-day habits and methods of living are held accountable for the physical deterioration of the race, and for the prevalence of diseases which are carrying off people by the million. According to Dr. Kellogg, the United States loses from its population of 100,000,000 by death 1,400,000 people every year, while 3,000,000 people are sick all the time. In other words, one-fifth of the population are inefficient or lost. He estimates that an average of seven days are lost from labor by sickness every year. Tuberculosis is gaining ground, and kills one out of every ten of the population. Cancer kills one in twenty. Other maladies are rapidly gaining ground. In England and Wales the insane are increasing twice as fast as the sane, and in France ten times as fast. Coupled with these alarming symptoms, there is the serious fact that the birth rate in nearly all civilized countries is rapidly declining.

Dr. MacNeill, superintendent of the Mental Hospital at Battleford, Sask., made the statement recently in a public address at Regina that at the present rate of increase of mentally deficient people there would not be enough mentally efficient people to look after them fifty years hence.

In support of his contention that present habits and methods of living are responsible for the serious condition of the race, Dr. Kellogg draws attention to one of the interesting lessons from the war, namely, the notable lowering of the death rate in several countries. In Denmark the death rate fell 35 per cent, due in the opinion of Dr. Hindle, the Danish food controller, to simpler habits of living, and especially the low-protein diet and the use of coarse bread. In Germany, too, diabetes has practically disappeared from the same cause, and gout, formerly very common, is now unknown.

Good health is the greatest asset any person can possess. Wealth is of little value to a man if he does not possess good health so that he may enjoy it. Without health no one can get much pleasure out of life. Lacking health no person can be wholly efficient. Ill-health is waste. Yet the best medical experts agree that, by taking proper precautions there is little reason for sickness, and that many diseases which now number their victims by the millions could be readily stamped out.

Health studies and health conditions must be given first place and foremost attention in our public schools. People must be made to understand that soundness of body is fundamentally essential in business, art, literature, politics and religion, as well as in warfare, sports and industry. By creating an enthusiasm for health promotion and physical perfection a long step forward will be taken towards the realization of that better state for all people towards which the world is blindly groping. A popular, nationwide Crusade for Good Health is imperative. Governments can do much, but the main essential is an aroused and active interest on the part of every individual citizen. The promotion of health is the only real, lasting and basic national policy for any country.

#### Goose's Appetite.

How many grains of corn can a hungry goose eat in two hours? Experts guessed anywhere from 2,000 to 3,000. Then a hungry goose was produced and the grains were counted. The goose ate exactly 431 grains in two hours.

It pays to patronize home industry. Buy from the merchants in your own town.

#### Innocent Tots.

Two children were standing before the Venus de Milo.

"Wonder if she was married," said one.

"Course not," said the other. "No one could ask for her hand, 'cos she didn't have any."—Boston Transcript.

It takes fifteen days for the average human body to recover fully from the loss of two consecutive nights sleep.

## Friend or Foe?

Many people find that tea and coffee are foes to their health, but that Instant Postum is a friendly table drink.

This pure cereal beverage is rich in aroma and flavor—fully satisfying—and contains no element of harm for nerves or digestion.

**"There's a Reason for POSTUM"**

### Sims Spent Younger Days in Toronto

Father Was Superintendent of Toronto and Montreal Railway. Rear-Admiral William Swenden Sims, whose pro-ally speeches in Great Britain have resulted in his recall to Washington by the secretary of the United States navy, lived in Toronto with his father, and mother when he was fifteen years of age. His father, who went from Philadelphia to Port Hope about 1854 as civil engineer on the construction of the railway from that town to Lindsay, moved with his Canadian wife and two children to Toronto in 1874 and became superintendent of the old Toronto and Nipissing Railway which ran from Toronto up through Beaverton and Cannington to Cobocook where it now ends.

In an old city directory of that year the father of Admiral Sims is listed as an official of the railway boarding at the Queen's Hotel, Front Street.

### For Stiff Neck And Sore Throat

Immediate relief comes from rubbing Nervine over the chest and lower part of the neck. Rub in deeply—lots of rubbing helps. Nervine relieves the congested part at once, relieves tightness, takes out the soreness. A bottle of Nervine in the home relieves a hundred ills, internal and external. For most ailments. Large bottles 35c at all dealers.

### Canada's Huge Wheat Area

Prairie Provinces Have More Than Ninety Per Cent. of the Wheat Acreage.

The total area sown to wheat this season in the Dominion of Canada is estimated at 18,654,000 acres, an increase of half a million acres over the 1920 area, constituting a new record for this grain. Seven hundred and nine thousand one hundred acres of this is needed to fall wheat, leaving 17,945,000 to be sown this spring.

The prairie provinces have more than ninety per cent. of the Dominion's wheat acreage, with 17,418,000 acres. This shows an increase of 577,000 acres over the previous year.

#### Catarrh

Catarrh is a local disease greatly influenced by constitutional conditions. HALL'S KIDNEY PILLS are the best remedy for Catarrh of the Blood Purifier. By cleansing the blood and building up the system, HALL'S KIDNEY PILLS remove morbid conditions and allow Nature to do its work. All Druggists. Circular free. E. J. Cheney & Co., Toledo, Ohio.

### Big Berthas Have Been Destroyed

Last of the Seven Was Scrapped in 1919.

Replying to the inter-allied military control commission's note regarding the location of the "Big Berthas" used by the Germans during the war, the German government said there were seven such long-range guns, of which four were destroyed before the armistice; the fifth was scrapped at Essen in April, 1919; the sixth was scrapped at Meppen, and the seventh at Magdeburg in November, 1919.

### WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Mrs. W. Beesley, Mills Road, Ontario, writes "I have used Baby's Own Tablets for the past eight months and would not be without them. I used them for indigestion and teething and my baby is cutting his teeth without any trouble whatever. I can highly recommend the Tablets to other mothers." What Mrs. Beesley says thousands of other mothers say. The Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach, thus driving out constipation and indigestion and making teething easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"Equinoctial" a Myth. That the equinoctial storm is a myth is demonstrated by an astute co-operative observer of the United States Weather Bureau, says the Scientific American. This popular belief is probably the result of teaching handed down from father to son. Old weather saws are very hard to eliminate.

Manitoba Free Press Crop Report. The Manitoba Free Press crop report, published June 7th, states that crop conditions are, if anything, more favorable than at May 17th. "It would be difficult to think of a more generally satisfactory report of conditions over so wide a territory," says the Free Press.

Keep Minard's Liniment in the house

W. N. U. 1273.

### WHEN WOMEN SUFFER

Look for weakness or ill-health. See if there is not a side ache, headache, restlessness and the blues. The symptoms indicate that you need the gentle assistance of Dr. Hamilton's Pills. This soothing medicine is a great friend to womanhood. They are a wonderful relief to constipation, they clear up sick headache, remove wastes and poisons from the system. Girls and women can use Dr. Hamilton's Pills with great success. Thousands use no other medicine and rely solely upon Dr. Hamilton's Pills to regulate the system and keep it in smooth running order. 25c all dealers or The Carruthers Co., Montreal.

### "Your Teeth"

By Rea Proctor McGee, M.D., D.D.S., Editor of Oral Hygiene.

#### CHILDREN'S HABITS

Copyright, 1921, by Rea Proctor McGee.

Habits formed in childhood are very difficult to break. The younger the child, the more quickly a habit is formed.

Their experience having been so limited, they very quickly become accustomed to almost any new diversion that may come their way. Many little things that, at the time, seem trivial, will have a severe effect in after years.

One of the worst habits that a young child forms is that of thumb sucking. Many mothers would rather have the baby quiet than dissatisfied with life in general and eating food. But the pacifying of the youngster by this method will cause a great deal of difficulty.

When a child sucks its thumb it pushes the roof of the mouth upward so that it makes a very high arch; and as the roof of the mouth is the floor of the nose, the nasal space is reduced and the septum of the nose is pushed over either to the right or to the left—usually to the left.

The upper teeth in front, along with the bone in which they are imbedded, are pushed forward and upward, and the lower front teeth and the surrounding bone are pushed inward and downward.

Medicated dentifrices should not be used by children. What they need is just thorough scrubbing of the teeth twice each day with clean water and a mild, pleasant tooth paste or powder.

### Japs Plan To Raft Timber From B. C.

Think Davis Structure Will Stand Trans-Pacific Passage.

A Japanese firm proposes to make another attempt to raft timber from British Columbia to Japan. They believe that the Davis raft structure, of which the outside rows of logs are laced with cable, can be made to stand the trans-Pacific passage. The first raft will leave this coast about August 1. It will have a super-structure of piled logs, strongly laced. Hitherto rafted logs have not withstood long sea journeys, except one which was taken from San Francisco to China about twenty years ago. Favored by calm seas the raft was safely landed. The Chinese, however, unused to big logs, took ten years to cut up this boom, using long, hand rip saws to make the boards.

### Phosphorus Discovered As Long Ago as 1670

Chemist Prepared It In Small Quantities From Bones.

What we now call phosphorus was discovered by a chemist called Brand in 1669, who prepared it in small quantities from bones. In those days of mysticism a substance that burned and emitted light without being ignited was hailed as a discovery of the principle of life. The sensation was just like what was made 250 years later by the discovery of radium.

Crossing Stock With An Automobile. If a motorist runs down a pig it is sure to be a blooded Berkshire, remarks the Boston correspondent. Every chicken slaughtered is a peddled bird worth \$40 to \$50. A yellow bayard car is a wire-haired fox terrier. A calf is always of Alderney or Guernsey blood—in fact, nothing seems to improve stock like crossing it with an automobile.

### New Camera's Great Range

Can Photograph From Height Where Airplane Is Invisible. Scientists of the United States Bureau of Standards revealed the details of a new photographic process but recently perfected. The discovery is expected to be of tremendous military value to the air service, as well as to have incalculable scientific and commercial application. It will give to the eye of the camera power which nature has never endowed to the human eye, for it will be possible for airplanes to make photographs from heights so great that the planes themselves will be invisible from the earth, and to penetrate haze that the human eye cannot pierce.

Not a Match, Either. A pompos manufacturer of machinery was showing a stranger over his factory.

"Fine piece of work, isn't it?" he said, indicating one machine.

"Yes," said the visitor, "but you cannot hold a candle to the goods we are turning out."

"Indeed! And what is your line?" "Gunpowder."

Fiction is less strange than the truth because we miss it often.

### OPPORTUNITIES IN THE VETERINARY PROFESSION

If you desire to enter a profession you should consider what the new field of Veterinary Science has to offer. Graduates have splendid opportunities for a successful career. You should inquire.

Write for Bulletin and Calendar to C. D. Mc Gillivray, M.D.V., Principal.

CANADIAN NATIONAL RAILWAYS

## British Stock Raisers Should Not Fear Canadian Competition

London.—A Scotch witness before the cattle commission said that the Glasgow corporation and county for 20 years advocated the admission of Canadian stock cattle, which, he said, were more free from disease than the home supply. In his opinion all the evidence pointed to the fact that Canadian cattle imports would lower the price of meat. One witness reminded the commission that the minister of agriculture lost his election at Dudley on the embargo question.

The president of the London Retail Meat Traders urged the necessity of providing the country with a more abundant supply of home-killed meats such as would come from Canada.

The Glasgow Herald, commenting on the evidence of Hon. Duncan Marshall, minister of agriculture for Alberta, says it was notable on account of the minister's frank presentation of the Canadian case.

"A year ago," says the Herald, "when he attended the Highland Show, Mr. Marshall impressed the agriculturists of Scotland as an administrator whose grip on agricultural affairs was as refreshing as his breezy oratory. His estimate that it would take 14 pounds to bring a Canadian steer over here is important. He used this argument to combat the fears expressed that either Irish, English or Scottish raisers of cattle would be driven out of business through competition from Canada. With freights at the present level only the best of Canada's surplus would be likely to be shipped."

## Turn First Sod In Irrigation Scheme

Work Commenced on Big Project at Lethbridge.

Lethbridge.—Amid a downpour of rain the ceremony of turning the first sod in the Lethbridge Northern Irrigation project took place at a spot on the line of the main ditch just north of Lethbridge.

Lieutenant-Governor Brett and Premier Stewart officiated, and other members of Federal and Provincial Parliaments were in attendance.

Active work on the completion of the big project, and the majority of the earthwork will be completed this season.

Finishes Journey Across Continent.

Vancouver.—As Charles Burkan, transcontinental walker, has arrived here 149 days after leaving Halifax, Burkan, who is only 20 years of age, was born in Whitewood, Sask. His parents reside in Port Arthur.

During the past week the Behans, father and son, and Mr. and Mrs. Dill, have arrived in Vancouver, having walked the entire distance from Halifax.

Trail Smelter Receipts.

Nelson, B.C.—Receipts at the Trail Smelter for the week ending June 14, were 7,795 tons of ore and concentrates, bringing in \$1,000,000 for the year to date to 1907/08. Of this total, properties of the Consolidated Mining and Smelting Company supplied 188,146 tons.

## Will Oppose Renewal Of Anglo-Japanese Treaty

Said That Premier Meighen Will Use His Influence to Have Treaty Denounced.

London.—The advisability of renewing the Anglo-Japanese Alliance, a question in which Canada is vitally interested, will be the first subject before the conference of Prime Ministers in session here.

Premier Hughes, of Australia, interpreting the public sentiment of his country, will urge renewal, but Premier Meighen is also certain to throw the whole weight of his influence toward having the treaty denounced. The Canadian premier was willing to support a renewal of the Alliance, but it had become clear that no vital empire interest is involved and there is a strong sentiment here, both in Government circles and the press, against the treaty. He has practically determined to fight against renewal to the utmost of his power.

The Premier of Canada will base his opposition to the treaty on three grounds: "First—That the reasons which made it necessary in 1911 have since disappeared.

## Americans Supporting Admiral Sims

Secretary Denby Receiving Letters From Different States.

Washington.—A new factor has entered the list on behalf of Admiral Sims and as a result belief grows here that he will either not be punished for his famous "jackets" speech when he returns, or merely be given a formal reprimand which will be looked upon as a mere formality.

Great numbers of letters are pouring into congress from different states, the greater number of which are reported by congressmen to be favorable for Sims. Some letters from the middle west are even declaring for Sims for president in 1924. This flood of letters will make it difficult for Secretary Denby to take any severe action it is believed here.

## Frenchman Discovers Valuable Serum

Will Render Cattle Immune to Foot and Mouth Disease.

Paris.—The discovery of a serum rendering cattle immune to foot and mouth disease has been made by Professor Vallee and Carr, of the Alfortville agricultural research laboratory. This announcement was made to the agricultural commission of the senate by Senator Beaumont.

The discovery is the result of years of experimenting with blood and microbes in order to make possible the fixation of bacillus of foot and mouth disease which is so infinitesimal that it could not be retained in the smallest of filters. Once this was accomplished it would be possible to cultivate the germ. Fixation now has been accomplished, and the serum has been made in small quantities.

## Immigration Law Cause Congestion

Three Thousand Emigrants Stranded At Port of Antwerp.

Antwerp.—The new United States immigration law is causing congestion at the port of Antwerp, especially as regards Poles, a number of whom are being left behind by each steamer and are unable to find shelter.

The steamer Kroonland which sailed June 12 was unable to take 850 emigrants on board, and only 30, there are now more than 3,000 emigrants here virtually stranded.

Japan May Evacuate Siberia.

Riga.—A despatch from Moscow to the newspaper, Norvypri, official Bolshevik organ here, says Japan had decided to evacuate Siberia, according to advices from M. Yurin, foreign minister of the Far Eastern Republic at Chita.

French Aid In Silesia.

London.—A dispatch to the London Times from Oppeln says there is evidence that the French are using greater influence in clearing the disturbance area.

## Treaty Money For Indians in North

Edmonton.—The Indian treaty party distributing government money to the Mackenzie River natives comprises six men, with H. A. Conroy at their head and will be in the north till the end of August. The party is travelling on a house boat towed by the Hudson Bay power boat, Hudson. Slide trips will be made up some of the smaller streams by canoe. About \$10,000 will be paid out in treaty to the Indians north of Port Providence. The money was sent ahead to Port McFurray in care of the Hudson Bay Company and is now being taken with the party for disbursement along the way. The itinerary of the treaty cashiers will extend to Fort McPherson, at the end of the line, this being the first time that the Mackenzie River tribes have ever been included in the scheme.

## Would Be Serious Matter

Invalidation of Grain Act Would Make Chaos in Canada.

Moore Jaw.—A chaotic condition of affairs would exist in the country should the Canada Grain Act be found ultra vires, the opinion expressed by Justice Hyndman, chairman of the Royal Grain Inquiry Commission. In discussing the legal status of the commission and the Grain Act, His Lordship pointed out that the situation would be similar to that which would exist should the Temperance Act be found unconstitutional. In such event, any person who wished to be able to peddle whiskey without interference from the law. If the Canada Grain Act was found to be ultra vires of Parliament, this condition would obtain in the grain business. His Lordship intimated that he considered it possibly the most serious situation which had confronted Canada for a long time.

## Airplane Treaty Has Been Violated

Entente Will Seize Military and Commercial Machines.

Paris.—Although the Allied experts have not agreed as to what is the difference between military and commercial airplanes, the ambassadors council decided that Germany has violated the treaty stipulations regarding airplane construction and as a penalty the Entente will seize practically every airplane existing in Germany.

The ambassadors instructed the inter-allied command to seize all military machines and then 25 per cent of the commercial planes as a punishment to Germany for violation of the construction restrictions. The remaining 75 per cent of the commercial machines will be seized and held until the end of the war, with the exception of all the aviation clauses in the treaty.

Perfect Score In Intelligence Test.

Seattle.—Michael John Nolan, 41, Canadian war veteran, who recently made a perfect score in the army intelligence test, a feat unequalled by the million or more who took the test during the war, was again in the limelight when he surpassed all competitors in the "shotgun" intelligence test of 180 questions intended to reveal the candidate's mental ability. He made a perfect score.

German Army Law Amended.

Berlin.—The Reichstag passed a bill amending the army law in accordance with the demands of an ultimatum of the allies. The chief change is that the law now expressly states that the army shall consist of 100,000 men, including a maximum of 4,000 officers and officials with the rank of officers.

Britain Sends Warning To Turkey.

Constantinople.—The British government has warned the Turkish Nationalists that any attempt to take Constantinople will mean war with Great Britain.

The purpose of sending a British brigade from Malta to relieve the Greeks at Izmir is to frustrate any Nationalist attempt to occupy Constantinople.

Printers Strike Money.

Toronto, Ont.—Eighteen thousand dollars in strike money was handed out at the Labor Temple to members of the Typographical Union on strike. Married men receive \$25 a week, single men \$20 and apprentices \$12. Union leaders report that seventy employers have signed up with them conceding the forty-hour week.

King Alfonso and his second son, Prince Jaime, have gone to London for a short visit.

## Re-Elected By Acclamation

Hon. C. A. Dunning, Provincial Treasurer, who was returned by acclamation to represent Moose Jaw County in the Saskatchewan Legislature.

## B. C. Would Restrict Japanese Immigration

Victoria.—The Provincial Government, through Premier Oliver, has forwarded to the Rt. Hon. Arthur Meighen in London, a cablegram strongly urging that any renewal of the Anglo-Japanese treaty should preserve to Canada the right to restrict Japanese immigration, something which the existing treaty does not stipulate. In connection with this subject, Hon. E. G. Barrow, minister of agriculture, has collected data showing to what extent Japanese and Chinese are engaged in the business of agriculture and horticulture in this province. This information has been forwarded to Hon. Dr. Tolmie, who accompanied Premier Meighen on his mission to England.

## Greek Offensive Beginning

British Reserves Relieving Division On Sea of Marmora.

Constantinople.—Opening of the Greek offensive against the Turkish Nationalists in Asia Minor is believed to be imminent. British reserves are relieving the Greek eleventh division at Ismid, on the Sea of Marmora, which is proceeding to the Uslak front, near the Bagdad Railway, northeast of Smyrna.

The allied high commissioners here have authorized the Greek fleet to operate from Gallipoli, at the southwestern end of the Sea of Marmora, up through the Bosphorus and along the Black Sea to Balkan on the Georgian coast. The Greeks have assigned to this work a squadron consisting of 25 warships.

## A Farewell Gift

Wives of Cabinet Ministers Present Gift to Duchess.

Ottawa.—The wives of the federal cabinet ministers presented as a farewell gift to the Duchess of Devonshire, a silver casket with the Canadian coat of arms enamelled thereon and lined with gray satin. The presentation was made at Government House by Lady Foster, wife of the acting premier. Lady Foster expressed the regret of the cabinet ministers' wives over the departure of Her Excellency and their appreciation of "the tender sympathy shown during all the times of storm and stress through which we have passed together."

No Complaint Against B.C. Salmon.

London.—Rt. Hon. Sir F. Mond, minister of health, referring in the House of Commons to the gift of canned salmon from the British Columbia Government during the war, concerning which criticisms have recently been published, declared it was inspected by officials of the ministry, who also undertook its distribution and found it entirely satisfactory. No complaints were ever received from participants in the gift.

Ice Cream Is Luxurious.

Ottawa.—In a judgment issued, the Board of Railway Commissioners refused the application of the manufacturers of ice cream that this commodity should be placed in the second class for express purposes and not in the first class as at present. In rendering his judgment, Chief Commissioner F. B. Carvell declares that ice cream is essentially a luxury.

Patronize your local merchant and thereby help to build up your home town and community.

## Old-Time Yarns in the West

By O-G-E-MAS-ES (Little Clerk).

(Copyrighted)

I was managing the Fairford Post of the Hudson's Bay Company in the winter of 1874-5 and was fortunate enough to own a splendid team of dogs that I have mentioned in former sketches. Mr. Isaacs Cowie at Manitoba House was my immediate chief and at his request I took a young sleigh dog to train with my own as these had a peculiar fast slugging trot which covered the ground in an amazing way.

I had occasion to visit Manitoba House, or the Post as it was commonly called, and started early one morning in the dead of winter, hitching up the strange dog with my own. As I was taking a carole and traveling light, I intended riding all the way and dressed very warmly accordingly. My dogs were not at all pleased with the interpreter and quite often would give him a sly nip behind, to which he would naturally retaliate, and this made the train go even at a faster pace than usual. We were about fifteen miles out from Fairford and walked towards the centre of the frozen lake, when feeling tired and cramped I called a halt and got out of the carole for a few minutes to stamp about and bring the circulation back. Turning my back on the dogs for a minute I heard a crash of bells and off they went in a flash, fortunately in the right direction. Running at top speed, I managed to keep near them for several miles, but noted with dismay they were gradually gaining ground and I was blown, also sweating profusely, as I had far too many clothes on for a dog runner. I stopped and rested a minute or two, then taking off my heavy coat jogged along at a steady pace. But gradually the train drew further and further away until lost to sight, and then I had only the marks of their claws on the hard drifted snow for a guide, and even these gradually disappeared as some light snow was falling.

Hard running at the start had been too much and then it was a long time since breakfast and naturally all my grub was on the sleigh. I began to feel very much exhausted and an overpowering desire to rest at any cost came over me. Placing my capot on the ice I lay down on my back and stretched out my arms. My eyes closed and I verily believe I would have been fast asleep in two holding twelve miles from the shore, but I found my right hand holding something and on holding it to my sleepy eyes, lo and behold, it was a little frozen mouse, one of the kind with long ears. Goodness knows how he ever had got out here all alone, but I was not to be soothed, for on gazing at him a sudden conviction came over me that if I once fell asleep I would be like the mouse in a few hours—frozen stiff. With that I stiffly regained my feet, piled up my heavy coat, muffled my ears, tens on the ice and started for the Narrows at a steady trot.

Next morning I was at the Post bright and early hoping to find the dogs there, but no signs of them. At once sent out a search party as there were some valuable furs at the back of the carole, a silver fox amongst them, but the searching returned in the evening, reporting no luck. Several days elapsed and I was discomfited, as parties had been out daily but could find no trace of the dogs. One evening, as I was looking out over the lake, I saw a dog train coming in from the north east at an unusually fast rate and calling Cowie to bring the field glasses. We soon decided they were the missing dogs, but as they reached the landing there were only four, the stranger having disappeared.

A young Indian was riding in the carole and told the following story: "I went out on foot to visit a line of wolf traps and on getting near the last one on the east side of the lake I noted some large animals walking round it. When they caught sight of me they came tearing in great bounds and thinking they were wolves I prepared to defend myself with an axe (the only weapon I carried). But when I saw they were dogs I then knew these were the train that had run away from Ope-mas, and my, but they were glad to see me and licked my face and hands. On going up to the carole I found Mr. Cowie's dog in my trap with a solitary frozen fox, and the harness still on him. So, as he would be of no further use, I knocked him on the head for wolf bait."

On examining the dog harness I noted that three of the belly bands were chewed in half, and on his telling this I at once realized what had happened. Next day, a second dog was a slim, thin haired creature with a very small head and could get out of his traces at any time my simply slipping the collar over his head. Then he apparently had set to work and released his brothers one by one, leaving the unfortunate stranger to his own devices.

(To be continued)

## Airmen Block Smugglers

Official Aviator Doing Good Work.

Mexico City.—Mexican aviators patrolling the Rio Grande border are declared to be doing good work in the apprehension of smugglers according to an official announcement. They are keeping up a rigid inspection from Piedras Negras to Matamoros. The date most of their captures have been persons bringing tobacco into Mexico.

## Rotarians at Edinburgh

Many Countries at Rotary Convention Held In Scotland.

Edinburgh.—It was reported at the annual convention of the International Association of Rotary Clubs, that there were represented at the session 33 clubs from the United States, 33 from Canada, 31 from Great Britain and Ireland, 5 from Cuba, 3 from South America, and 1 from India.

Prior to the beginning of the business session, Frank Weedon, of New York, led the delegates in the singing of popular songs, thus upholding the unconventional nature of the assembly.

B.C. Forest Fires.

Victoria.—Forest fires in British Columbia during the last week brought up the total for the season so far to 158, according to the report of P. Z. Caverhill, chief forester.

New Rotary President.

Edinburgh.—Dr. Crawford C. McCollough, of Eugene, Ont., was unanimously elected president. The national Association of Rotary Clubs now in session here for the ensuing year.

## France Hindering Silesian Adjustment

Lack of Co-operation is Producing Serious Situation.

London.—Great Britain, in a further communication to France on the Silesian question delivered at the League of Nations, declared that the basis of the French ultimatum to France, called attention to co-operate in the restoration of order in Silesia, and declares that the lack of concerted action is producing an increasingly serious situation. Great Britain suggests that all the British troops in Silesia be placed under British command which would involve the relinquishment of French military control at some points. It is explained that this would have the effect of freeing more British forces for independent action.

## Raising the Standard

Manitoba May Insist on Higher Qualifications for Teachers.

Winnipeg.—A movement has been launched to raise the standard of education in Manitoba by insisting on higher qualifications for public schools teachers. A couple of years ago the province was short of teachers. Today, according to those in touch with the situation, there are plenty to go round.

Under these circumstances it is believed the time is opportune to raise the standard.

German Haircuts Up.

Berlin.—Germany is being forced into an alliance with the Bolsheviks, and the blame is being placed on account of high labor cost, price of haircuts and shaves will be boosted 20 per cent.

## Items of Local and General Interest

Peter Lund was a visitor from Lethbridge on Monday.

Miss Gladys Purvis returned to Nelson on Thursday last.

Born, at Blairmore, on June 2nd, to Mr. and Mrs. Warren T. Ayres, a son.

A dance will be given in the Polish hall at Coleman on the night of July the 1st.

The Bay of Quinte veterans carried a motion, placing a ban on the future use of military titles for pastors.

We are pleased to learn that Jack Eddy, of Beaver Mines, has almost completely recovered from his recent serious illness.

Walter Knight has sold his house and property at Lundbrook to James Smith and has moved to Calgary, where he will reside in future.

Mr. and Mrs. Alex. Morency and children left here by Monday's noon train for points in Ontario, where they will visit for a few weeks.

Nearly seven thousand men were placed on farms in the province of Saskatchewan during the month of April by the Dominion employment bureau.

The Alexandra hotel block at Lethbridge has been purchased from P. Burns & Co. by W. Porter, of the Arlington hotel for the sum of \$100,000.

Four persons were killed and 34 were injured when a Chicago and Northwestern train from Lamer, Wyoming, to Omaha, was wrecked by the collapse of a bridge.

The Presbyterians have voted strongly in favor of church union, the Methodists want it—now, let's have it. There are innumerable advantages to the proposition.

A well-known local young man, who happened to be driving his car with one hand the other night had the misfortune to run into a telephone pole. The other inmate escaped unhurt.

School closes this week for the summer holidays.

Tony, the seven-year-old son of Mr. and Mrs. Tony Stella, died of heart trouble in the Kamloops hospital on Friday last.

Alexander Boone, McMurdo, of Pincher Creek, and Frank Wright, of Blairmore, have been appointed commissioners for oaths.

Pincher's pitcher should remember that, "to be unduly elated when you win and unduly depressed when you lose is a sign that you are carrying too much sail and not enough ballast."

Mrs. O. Lagace returned Friday morning from a several months' trip to Belgium. During her visit to the homeland, Mrs. Lagace visited considerable of the areas devastated by war.

J. B. Harmer has severed his connection with The F. M. Thompson Co., and accepted an appointment as district manager with The Crown Life Insurance Co., with headquarters at Blairmore.

A christening ceremony took place at the home of Mr. and Mrs. Joe Nastasi, Passburg, on Sunday evening last, conducted by Rev. Father Murphy. Following the ceremony a party of about twenty sat to a repast served in the good old Italian style.

The city of Calgary pays a higher rate of wages to its street railway employees than any other street railway system in Canada, and Calgary has more street railway mileage per 1000 population than any other city in the Dominion, save Vancouver.

At Vulcan the Presbyterians, Methodists and Anglicans availed themselves of the office of the Chautauqua on Sunday last to use their tent for divine service, and a grand rally of citizens attended a united service in which the general public participated.

A local man with a large family did not patronize Chautauqua, claiming that he could not afford to pay \$2.00 for a week's entertainments. He with his family attended a coon minstrel show on Friday night and paid \$9.00 for seventy minutes of tomfoolery.

Among the prospective candidates for provincial elections mentioned locally are: L. H. Putnam, P. M. Christophers, J. M. Carter, A. M. Densmore, A. M. Morrison, W. J. Fisher and Bob Levitt.

Fernie defeated Blairmore at football at Fernie on Sunday last to the tune of "Two-All."

Coleman defeated Hillcrest in a football league fixture on Saturday evening by a score of four-all.

Charles Ouimette, of Coleman, has been appointed deputy for this district of the A. E. & A. M.

Our town is looking brighter every day—thanks to the painters, decorators and property owners.

The annual convention of the Union of Canadian Municipalities will be held at Ottawa on July 27th to 29th.

Coleman and Blairmore play a league football game at Blairmore on Saturday evening next. Kick off at 6.30.

A. Stewart, of Bruce, Alberta, spent a few days in town this week. Before returning home he visited west as far as Cranbrook.

Miss Buck, who acted as advance representative for our Chautauqua, left for Claresholm the middle of last week, where she is in charge of the Junior Chautauqua.

J. P. O'Neill, district manager for P. Burns & Co., on Saturday received the sad intelligence of the death of his father, which occurred rather suddenly at his home near Peterborough, Ontario.

Principal Conway and Miss Fulton leave next week for Edmonton, where they will spend a few weeks in the employ of the Department of Education, marking examination papers.

"One whole week of entertainment and profit." This is how a large number of our citizens refer to the Chautauqua week in Blairmore, and anyone who cannot see Chautauqua in that light had better go away back home and start life over again.

The Catholic cathedral, now building in Washington, will cost \$20,000,000. It is designed to accommodate 27,000 people.

The high balls used to cost in the neighborhood of fifty cents. Now golfists tell us they often cost \$2.50 in one afternoon.
